

# Sahil Mehta

Meticulous full stack developer with an entrepreneurial mindset for building real-world applications that solve everyday problems. Experience includes developing for student-run startups, contributing to open source projects, and competing in hackathons. Always looking for new opportunities to combine my experience in software with my passion for technology and grow as a professional engineer.

## EDUCATION

### **Bloc | Computer Science, Software Engineering**

June 2015 - May 2018

**Relevant Coursework:** Object-Oriented Programming, Data Structures and Algorithms, Frameworks and Design Patterns, ORM Architecture

### **University of California, Riverside | B.S. in Business Admin**

September 2009 - June 2013

## EXPERIENCE

### **Cluster | Full Stack Developer (Co-Founder)**

November 2017 - April 2018 (Oakland, CA)

- Started a professional organizing service that teaches individuals how to declutter and maintain their personal space
- Integrated Stripe Checkout to process payment transactions and SendGrid Delivery to send clients automated email reminders
- Implemented Active Admin to set up a backend user interface so team members could navigate and filter through persisted records

### **Bear Founders | Junior Developer**

July 2017 - November 2017 (Berkeley, CA)

- Joined a social networking platform that allows for UC Berkeley students and alumni to discover new opportunities at young startups
- Created a responsive landing page using Bootstrap components and jQuery effects to enhance the overall user interface and experience
- Increased application speed through the use of pagination and infinite scrolling by limiting the amount of datasets on page load

### **Yup Technologies | Quality Assurance Analyst**

September 2015 - May 2016 (San Francisco, CA)

- Instructed and managed 25 Senior Tutors remotely through the Operations Team for an on-demand mobile tutoring service
- Provided tutoring templates and grading guidelines to show tutors how to effectively keep students engaged on a mobile platform
- Generated variance reports from weekly feedback tests that held tutors accountable for maintaining a standard deviation below 1.5

Oakland, CA  
(562) 547-7684

## SKILLS

**Frontend:** JavaScript, jQuery, React, Bootstrap, Semantic UI

**Backend:** Ruby, Ruby on Rails, Node.js, AWS, Python, Django, MySQL, PostgreSQL

**Tools:** Github, RSpec, Heroku

## PROJECTS

### **Skillabl**

January 2018 - March 2018

- Contributed to an open source project for recent college graduates who are looking to obtain the skills necessary for success in their respective career field
- Developed scripts that converted python models into JSON fixtures in order to load and initialize data for each object class

### **FantasyMetrix**

August 2016 - December 2016

- Participated in the Hackster.io Amazon Alexa API Mashup Contest by building a voice-enabled skill which queries past and present statistics along with advanced metrics derived from NFL players using the Yahoo Fantasy Sports API

## INTERESTS

Settlers of Catan, Fantasy Sports, Soccer, Halo, Machine Learning, Wag!
